

Please do not lessen Indiana's Telephone Privacy Law protection. This law has been extremely effective for my family. It has allowed us to spend more valuable time together instead of answering the phone and getting woke up out of bed. The calls came as late as 11:00 pm at night. We were also receiving up to six calls per night from solicitors and questionnaires. This law has definitely saved many trips answering the phone, less to no burned meals, and lot less worries. By living on a farm, I never knew who or what was on the other end and now I know that when the phone rings, it is an important call or an emergency. PLEASE DO NOT LESSEN INDIANA'S TELEPHONE PRIVACY LAW PROTECTION!
